Subject: Proposed Spaceport

Dear Supervisor Turner, Commissioner Moran, and Chairman Gonstead,

My name is Barb Scholtz and I have a home on County Road KB in Powell Township where my husband and I spend 6 months of the year and pay state and local taxes.

I object in the strongest way to the proposed Granot Loma rocket launch plan.

Four years ago, we bought 30 acres on the shore of Lake Superior along the seasonal county road for the explicit reasons around the desire to be in the natural environment, away from the bustle of our city-home in Cincinnati. Our intention is to eventually move to the area full time due to the isolation and "bare bones" life we've enjoyed for the past three summers. We are against further development and "urbanization" of the beautiful Powell Township area.

I was shocked and disappointed to learn of the proposed "Spaceport" at Granot Loma, just a few miles from our home.

According to Marquette County Board's employees and aerospace experts, this would require re-zoning and amending the Powell Township Zoning Ordinance to create a new, intense, industrial use zone.

My specific concerns are that:

- the launch blast will be **seen and heard for miles around**
- the launch will require **evacuation of multiple family homes due to explosion risk** - possibly including mine!
- **falling rocket debris will endanger hunting, fishing, and other recreational activities**
- **lighting and water towers will pollute the day and nighttime sky views**
- **clear cutting will strip crucial habitat** for many plant and animal species
- the launch site will be built on **fragile wetlands** atop a sandstone bluff
- a water deluge shockwave suppression system will **draw large amounts of water from groundwater tables and/or the already eroding lakeshore**

This industrialization of our Lake Superior coastline will degrade the quality of life now enjoyed by those who hike, fish, hunt, recreate and live in the beautiful natural landscape of Powell Township.

Please publicly note my letter of opposition to the spaceport proposal and to any associated proposals for zoning changes. Please provide hard copies to fellow board/commission/committee members and post online with the board/commission/committee website minutes documents.

Sincerely,

Barb Scholtz
